

# Thompson Ferrier™

NEW YORK

*Our story began when we met at a restaurant more than a decade ago. What started as a chance encounter, turned into a captivating romance. Within a short period of time, our career paths aligned and our styles connected. We turned our love affair for fragrances and high design into our company motto—Love Your Fragrance | Live In Style! Our company, Thompson Ferrier, was created so that our loyal customers would always be able to find their favorite and unique fragrance and still discover a whole new array of fashionable candles. We are constantly changing our designs while keeping our fragrances refined, classic, and traditional.*
